May 7, 1970

William T. Jerome III, President
Bowling Green State University

At its meeting of Tuesday, May 5, The Faculty Senate of Bowling Green State University passed the following resolutions:

The violence on the Kent State University campus was regrettable and the destruction of property may not be condoned, but the Faculty Senate of Bowling Green State University condemns and is sickened at the brutal killing and wounding of students by members of the National Guard and finds violence no more acceptable on the part of public authority than on the part of dissenting students.

The Faculty Senate of Bowling Green State University asks that the use of National Guard on campus be discontinued until a thorough review of this recent tragedy at Kent State University is completed.

It was ordered by The Faculty Senate that these resolutions be transmitted to you with the request (see attached) that you forward them to Governor Rhodes.

Stuart R. Givens, Secretary
The Faculty Senate
